I just
want to
somewhere
decent to
convalesce...

...I already knew that
cancer was a
serious disease...but
having it first-hand,
I have learned how
physically, emotion-
ally, and spiritually
painful it is and I
have learned to grow
stronger in it all...

...there are
so many
groups
out there
that say
that they
want to
help...but
will not
help

...you need to help with the most basic needs first.
anyone who chooses the
unconditional treatment...
